

Information about the rough dealing pattern & harassment by Mr. Arnab Kole (Assistant Professor of The Heritage Academy, Kolkata)

This is to inform all of you that I am an ex-student of The Heritage Academy College, Kolkata & I want to inform all of you regarding some wrong & rough dealing pattern of Mr. Arnab Kole, a faculty member of the institution. It is very painful situation that I have seen & till today I got the information that Mr. Kole is not behaving well with the students of the institution. The same problem I

have faced & trust me that Mr. Kole always behaves with the student as if the students are beast. He comes to college not for teaching, just to express his bad nature. I have noticed during my college days that he always tried to neglect the students. He harassed many students physically & mentally including me. At the time of examination he tortured many students including the girl students. He doesn't know the basic norms of dealing. I have seen that he doesn't pay the basic respect to other faculty members of the institution. He harassed us a lot. Arnab is the worst faculty member of the institution. He has harassed many girls students physically also. He abuses the students & use slang words inside the class rooms & college campus.

This type of conduct is not tolerable under any circumstances. At the time of teaching inside the classroom he always tried to express that he knows everything & we don't know anything. Last time when I met him, Arnab has forced me to write the apologize mail. But the scoundrel did not admit his fault.

Hope, all of you will kindly take some necessary steps to stop such indiscipline conditions within the institution. Because, The Heritage Academy is a good institution & I wish all the best for further growth of this college. If you kindly don't take any step, Arnab will do a great damage of this institution.
